Did you know that only 3% of Turkey is located in Europe? The remaining 97% is located in the continent of Asia! Turkey has always been the gateway to the Middle-East. The Turks have been influenced by many civilizations including the Ottomans, the Greek civilization of Byzantium and the Roman civilization of Constantinople. You will be fascinated by its opposing characteristics; its historic background and its promising future.

Religions have all intertwined through the course of centuries; they have without a doubt left an original heritage behind. You will discover its authenticity while visiting mosques, basilicas and other Jewish sites and pagan sites.

Turkey, in addition to Istanbul, possesses many imposing riches, one more interesting than the other; the gorgeous blue waves of the Mediterranean Sea, the natural and historical site of Pamukkale, the volcanic regions of Cappadocia and a large number of archaeological sites. These are all outstanding reasons not to miss a journey filled with history and discovery.
