## DISCOVER AFRICA

Africa is as different from north to south as it is east to west. From Casablanca to Cape Town, Africa offers some of the greatest secrets and travelers' treasures to be found anywhere on earth.

The inhabitants, both human and otherwise are no less diverse - Africa is home to modern cities and nomadic villages alike.

This is the land of the Sahara Desert, the Kilimanjaro, the Source of the Nile, the home of the open plains, thundering hooves, palm fringed coastlines, jostling dhows and exotic islands.

Africa is a book that once opened can never be closed. It is a destination that creeps under the skin, and if you visit once you will be compelled time and again to return.

**EASTERN & SOUTHERN AFRICA**
