We strongly emphasize reef friendly behavior, so our guide will give you good explanations and an introduction into snorkeling. The ride to the islands takes about an hour and once out there the captain and guide decide together where to go on that day, depending on wind direction wave height, visibility, etc. We know the Similans for a long time and truly, we take you to the best spots. Between the different snorkel spots we have lunch on 'Koh Miang', the island where the Princess of Thailand has her own cottage. Here you have time to explore the island a bit as well. If you are lucky, there is the endangered Nicobar pigeon, fruit bats, or the biggest land crab on earth, the hairy leg mountain crab to discover. After one more snorkel stop in the afternoon we depart for Khao Lak again and once we reach our own jetty in the mangroves we have our minibuses waiting for the transportation back to your hotel.
